(1) Payables represent amounts due to settle security transactions that have been executed but have not settled as of period end. The funds used to settle these trades may come from a variety of sources including cash within the portfolio, proceeds from future security transactions including maturities and sales, or other sources including money market funds. For reporting purposes, a payable is created for over-period settlements which are reflected in the detailed holdings.

(2) Market Value Plus Accrued Net represents the market value of the portfolio net payables and receivables from transactions that settle in the following reporting period.
